

# English Garden

The English Garden aims to be conserved and repaired and utilised as an enchanting outdoor dining area sheltered within its walls. Fragrant climbers are proposed to scale the walls, raised beds will be planted with formal evergreen and white flowering species.

Espalier fruit trees capitalise on the sunniest walls providing edible walls for guests to enjoy. The garden sheds provide a maintenance area for the gardens.

## LEGEND

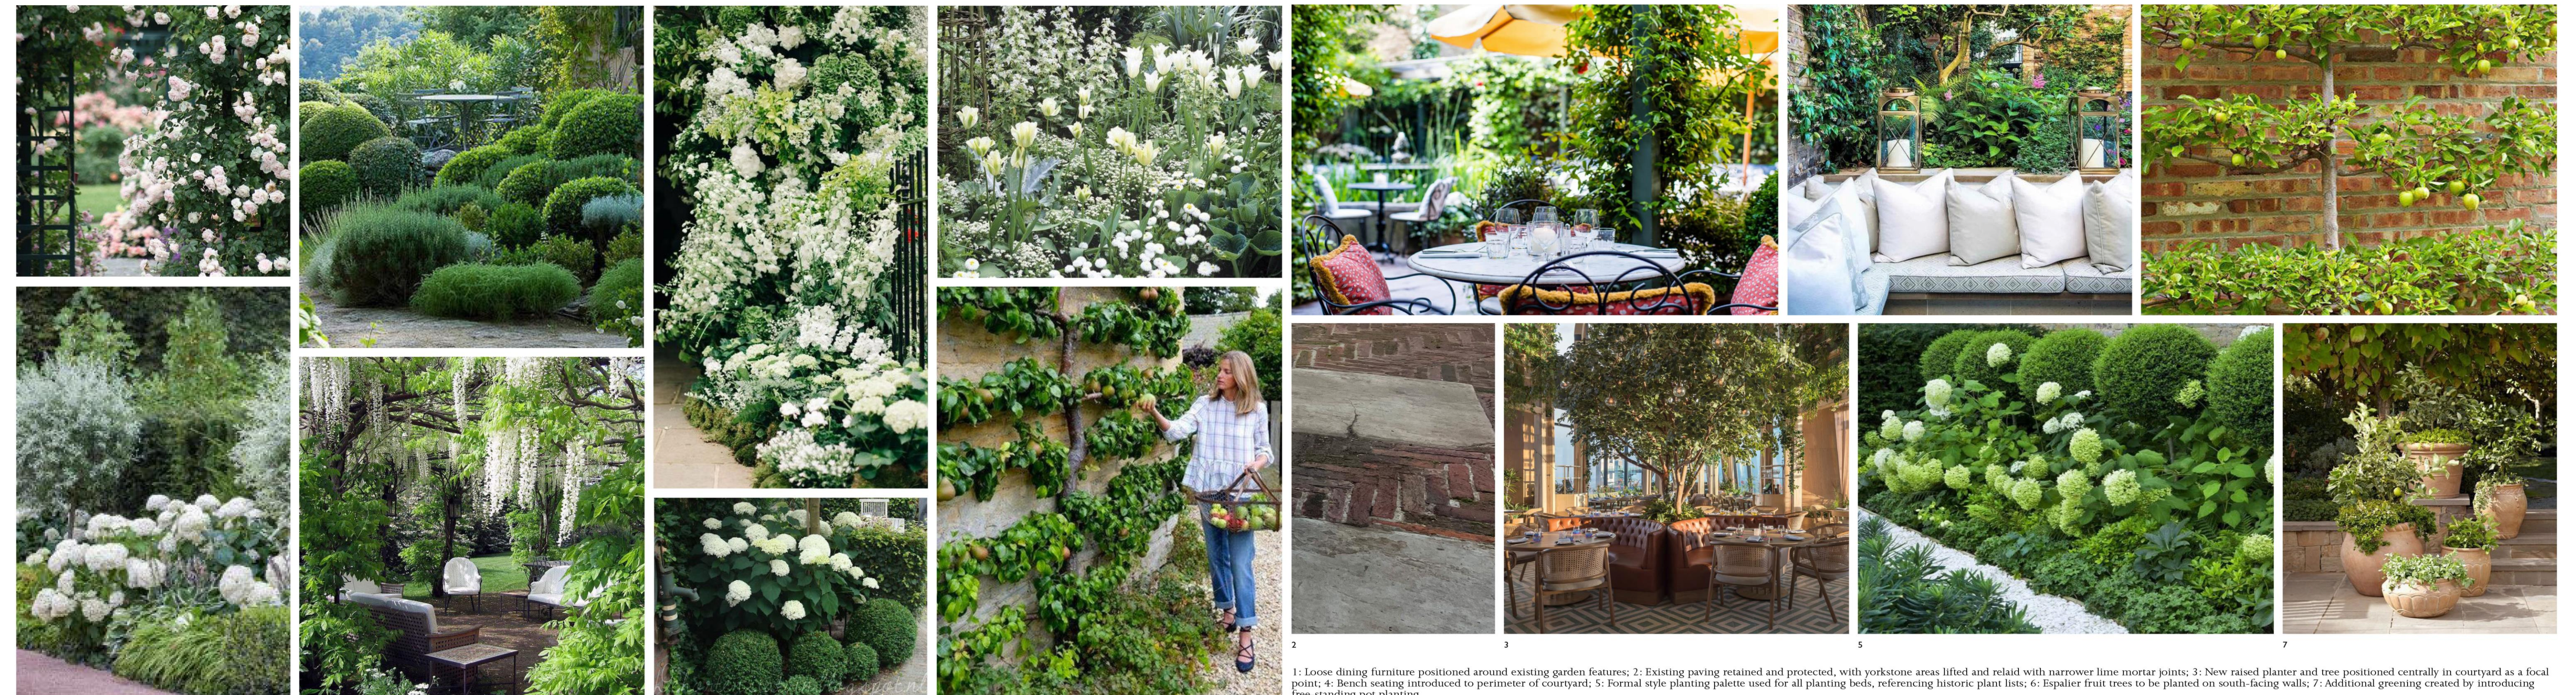

- 1 Conserve and repair the shelter structure

- 7 Raised moveable planter with feature tree and seating
- 8 Conserve and repair existing low raised walls
- 9 Retain existing garden sheds

Location Plan (NTS)

Spanish Garden Character Area (Approx. Scale 1:200)

1: Loose dining furniture positioned around existing garden features; 2: Existing paving retained and protected, with yorkstone areas lifted and relaid with narrower lime mortar joints; 3: New raised planter and tree positioned centrally in courtyard as a focal point; 4: Bench seating introduced to perimeter of courtyard; 5: Formal style planting palette used for all planting beds, referencing historic plant lists; 6: Espalier fruit trees to be planted on south-facing walls; 7: Additional greening created by introducing free-standing pot planting.
